

Jennifer Burk Video Bio

I think what sets SVA apart from other firms is that we really strive to take a team approach to providing client solutions. We have a team of business advisory experts and a team of tax experts and we really place an emphasis on getting the right team in place to help clients achieve their goals in all aspects of their business.

What gets me really excited about the work that I do is really the client relationships. It's all about client relationships. I really enjoy getting to know the clients and their businesses. I think it's really important to stay in contact throughout the year, not just at tax time. It puts me in a better position to identify any potential issues before they become tax problems. And it also helps identify anything that may be coming down the road for them that may have a significant tax consequence, and together we can get out in front of it and put some tax planning strategies in place to hopefully minimize any tax consequences.
