

Craig Maternowski Video Bio

The thing I like best about working in public accounting is working with people and making a difference. There's something very satisfying about earning the trust of a client and being there to help guide them through some of the most important decisions of their life. For a lot of my clients, the majority of their wealth is in their business. So when you're there to help them either to buy or to sell or the transactions in between, you're helping them build value in their largest asset and that's very rewarding.

Outside of work I enjoy coaching youth sports. For the last eight or nine years, I've coached my two sons in select baseball and football. And I love watching kids develop both inside and outside the sport.
