

Stephen Bjork Video Bio

[Music]

I have been part of two not-for-profit boards. The first was the German Immersion Foundation, which was set up to assist two Milwaukee public schools – Milwaukee German Immersion School and Milwaukee School of Languages. I served on that board for six years with almost all of my time also as the treasurer. While I was on the board, a group of parents from Milwaukee French Immersion School approached us to help set up the same sort of board to assist the Milwaukee French Immersion School. We assisted them and, after my time on the German Immersion Foundation Board, I joined the board of the Milwaukee French Immersion Foundation. My role as a board member was as a mentor, so I could assist them and help them through the same process and the same trials and tribulations that we had on our board.

Many of the referrals that I've received have come from current clients. Many of those clients were initially referred to me from others. I think they give me referrals because of the value that they see and what I've done and how easy I make the process for them.
